

OMEGA BALANCER

POWERED BY

STRATA™
WITH EPA/DHA OMEGA-3 FATTY ACIDS

DEVELOPED BY

Suther Feeds, Inc

Research proven improvement of conception rates, health and immune status, and percent cows bred when utilizing Suther Feed's Omega Balancer program for heifers, cows, bulls, and calves.

Most beef diets include feed ingredients that are rich in omega 6 fatty acids and low in omega-3 fatty acids. Omega-6 fatty acids cause inflammation, whereas omega-3 fatty acids cause anti-inflammation. Feeding Omega-6:Omega-3 fatty acids in a ratio of 8:1 is optimal for better and more efficient immune system function.

Omega balancer is a high EPA/DHA calcium salts form of omega-3s that is ruminally protected to reach targeted tissues for optimal absorption. Omega balancer can be added to minerals, protein supplements and/or grain mixes to achieve a diet balanced in fatty acids. Omega balancer is available in Suther Feeds products in either tub or meal form.

SOURCES OF OMEGA FATTY ACIDS

OMEGA-6s

- Alfalfa hay and silage
- Corn silage
- Corn Grain
- Distillers grains
- Soybean meal
- Whole Cottonseed
- Whole Soybeans

OMEGA-3s

- Fresh grass
- Fresh alfalfa
- Flaxseed
- Fish meal (oil)
- Fish oil
- Algae

What does Omega Balancer do?

Cows	Bulls	Receiving Calves
<ul style="list-style-type: none"> ✓ Improved immune system function (Geisert, 1992). ✓ Reduced inflammation ✓ Improved embryo retention – 50% greater early embryo retention (Silvestre, 2012). <p>Better conception rates</p>	<ul style="list-style-type: none"> ✓ Increased sperm count ✓ Increased sperm motility ✓ Better sperm morphology (Gholami, 2010). ✓ Increased scrotal circumference <p>More bred cows</p>	<ul style="list-style-type: none"> ✓ Improved immune system function & vaccine response ✓ Fewer treatments ✓ Improved energy efficiency (Krehbiel, 2012; Gifford, 2015). <p>Improves health and performance</p>

When to feed Omega Balancer?

Cows	Bulls	Receiving Calves
<ul style="list-style-type: none"> ❖ 60 days before and after conception and flushing 	<ul style="list-style-type: none"> ❖ Throughout bull development ❖ 60 days prior to service 	<ul style="list-style-type: none"> ❖ First 28 days on feed

Omega Balancer is an economical program that is available in mineral, protein supplements, tubs, & base mix products. Contact your Suther representative for more information.
